STOP Human Trafficking

Promises of a better life—Promises of a paying job—No promises at all!

MEN, WOMEN, BOYS and GIRLS are being abducted, raped, sodomised, beaten, imprisoned and even murdered for the evil pleasures and greed of others!

Although there are many victims that are from a vulnerable and powerless minority in a region, the victims can be from anywhere. There is no particular type of victim of human trafficking. Often people tend to think that they are from poor countries but in fact they can be from a very well-to-do family. This type of crime occurs in such a way that many times people do not even notice, much less grasp the depth of the issue.
